HOW TO USE THIS CONTRACT:

Either Level I or Level II dealers may be chosen (Level II vendors- manufacturers or smaller distributors with a narrower offering). The basis for selection among multiple contracts at the time of purchase shall be the most economical alternative that meets form, function, and utility unless there are overriding practical issues, and should be in the best interests of the States, taking into consideration:

- ◆ Form, function and utility needs of the purchaser
- ◆ Price
- ◆ Overhead associated with storage and inventory of the goods
- ◆ Note that construction costs are not covered under installation in this award

It is recommended that contract users shop wisely:

1. **NOTE:** If a purchase is being made using Homeland Security or Law Enforcement Terrorism Prevention Federal Grant monies, end-users must notify vendor at time of ordering (place information on Purchase Order) that these funds are being used. This is required to enable vendors to meet Federal grant tracking requirements.
2. If you are purchasing a large volume of a specific piece of equipment or costly item and know the manufacturer of the product, you may want to go to the manufacturer line spreadsheet See Summary page at <http://www.ogs.state.ny.us/purchase/spg/awards/3823219745CAN.HTM>. This sheet lists the manufacturer line carried by each vendor. Obtain pricing from more than one vendor if possible and compare.
3. If you do not have a specific manufacturer item in mind, go to section of this award that lists the types of equipment offered by vendors – starting on pages 18 for list of contractors and equipment categories offered.
4. Go to vendor web-site to view equipment handled or contact contractors for copies of the catalogs with the equipment specified herein. Contact contractor to set up account and registration for entry into contractor's website for those vendors that have listed this service on their award pages if you wish to access their web catalog for these contracts.
5. Select vendors offering the type of equipment you wish to purchase. A price list is included in this award for each vendor so that you may check pricing.
6. Compare pricing and availability of items you wish to purchase. If you are purchasing or expect to purchase a large quantity of any one item or a large quantity of items from any one manufacturers' line during the course of one year, contact vendor contract administrator (name listed on vendor page to expedite contract purchases) and request additional discounts
7. It is recommended that end-users seek pricing from more than one vendor especially if they are purchasing large amounts of goods for a high dollar amount.
8. Purchase from the vendor meeting your equipment needs who has offered the best pricing on the majority of the equipment (the highest dollar value) being ordered.
9. In case of emergency go to the vendor able to supply the equipment in the most timely manner.
10. Choose the most cost effective option meeting your needs; document your choice and proceed with the purchase.

NOTE:

- Certain equipment must be certified to be purchased with Federal Homeland Defense monies. Vendors listed below have supplied listings of the certified equipment they carry, along with the item numbers. Each vendor list is available under link on vendor page along with accepted price list.
- These contracts are not limited to authorized equipment only. If using Federal Homeland Defense funds end-users should check to be sure equipment they wish to purchase under this contract is authorized.

In every contract over \$10,000 the provisions in 1. and 2. below apply:

1. During the performance of this contract, the contractor agrees as follows:
 - a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Commonwealth shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. The date of mailing of any payment by U. S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract.
