## Virginia Department of General Services

### Statewide Consulting Services

**Contract Number: PF14804C12-09**

### **CATEGORY 12: Business Process Analysis and Reengineering**

## **iPower LLC**

### **Integrating Best Practices with Performance Based Solutions**

Founded in 2001 and headquartered in Reston, Virginia, iPower LLC successfully supports government and commercial clients in areas such as; strategic planning, business process improvement, performance management, quality assurance, earned value management, enterprise support, project management and training services. In performing business process analysis and reengineering, we critically examine and redesign mission services and product within the environmental constraints that are confronting our clients in order to maximize gains in performance and productivity.

### **Contract Category**

iPower's Business Process Analysis and Reengineering services are grounded upon a process oriented approach which re-invents how work is to be accomplished. In analyzing business processes, we identify core processes that are critical to your performance and productivity. To that end, we determine answers to the following questions:

- Is the process broken?
- Is the process antiquated?
- Will reengineering of the process be successful?
- Does the process have a high impact upon our client's strategic vision and direction?
- Does the process significantly impact upon customer satisfaction?
- Does the process fail to meet commonly accepted standards and best practices?

A Virginia Small, Woman-  
and Minority-owned (SWAM)  
Business (Cert. # 8809)

An Small Business  
Administration (SBA)  
8(a) certified company

Our business process analysis and reengineering methodology follows a phased approach consisting of six principle tasks:

- Definition
- Assessment
- Evaluation
- Planning
- Approval
- Implementation

## Ordering Process

iPower's goal is to achieve optimal performance and productivity for our clients by continually evaluating, adjusting, and/or removing antiquated or inefficient systems and processes to meet their needs. To get started:

- (1) Call or email Deborah Hunt, CEO to discuss your needs and requirements
- (2) Provide us with additional information in writing, if applicable
- (3) If necessary, we will meet in person to define your needs
- (4) Then we will provide a proposal with a detailed scope of work and a price and other information as requested

## Discounts

Engagements of 12 months or more will receive a 5% discount on all hourly rates for the initial order.

Prompt payment discount of 5% will be applied for all payments made within 30 days of receipt of iPower's invoice date.
