				Award Specifications for Level XII			
				C. Each level contains three purchase/rental choice with the following life cycle cost (LCC) criteria:			
				1. Outright Purchase:			
				LCC = TAC + M2 + M3 + R3 + 36MR + RM3			

E194-231-10VP Neopost, USA Inc. Level XII

where: TAC = total acquisition cost including one year warranty (less meter rental).							
M2 = full service maintenance cost including preventive maintenance for year two,							
M3 = full service maintenance cost including preventive maintenance for year three,							
R3 = rate change insurance for a three year period,							
36MR = meter reset cost for 36 resets at a rate of one per month,							
RM3 = rental of postage meter for a three year period,							
and with the date of installation acceptance used as a beginning for the time							

E194-231-10VP Neopost, USA Inc. Level XII

periods referenced.						
2. 36 Month Rental:						
LCC = 36RNTL + R3 + 36MR + RM3						
where: 36RNTL = total 36 month rental cost (less meter rental).						
R3 = rate change insurance for a three year period,						
36MR = meter reset cost for 36 resets at a rate of one per month,						

E194-231-10VP Neopost, USA Inc. Level XII

RM3 = rental of postage meter for a three year period,						
and with the date of installation acceptance used as a beginning for the						
time periods referenced.						
3. 12 Month Rental:						
LCC = 12RNTL + R1 + 12MR + RM1						
where: 12RNTL = total 12 month rental cost (less meter rental).						

E194-231-10VP Neopost, USA Inc. Level XII

<p>R1 = rate change insurance for a one year period,</p>							
<p>12MR = meter reset cost for 12 resets at a rate of one per month,</p>							
<p>RM1 = rental of postage meter for a one year period,</p>							
<p>and with the date of installation acceptance used as a beginning for the time</p>							
<p>periods referenced.</p>							
<p>M. Level XII System:</p>							

E194-231-10VP Neopost, USA Inc. Level XII

1. Mailing Machine:							
a. with the capability provided for processing at least a single rate							
<u>minimum</u> of 200 pieces of letter and post card, like-weight,							
card, like-weight, minimum thickness mail per minute, with letter and							
post card mail sizes:							
<u>Letter Mail Dimensions</u>							
<u>Dimension</u>		<u>Minimum</u>		<u>Maximum</u>			
Height		3-1/2 inches		6-1/8 inches			

E194-231-10VP Neopost, USA Inc. Level XII

Length	5 inches	11-1/2 inches			
Thickness	0.007 inch	1/4 inch			
<u>Post Card Mail Dimensions</u>					
<u>Dimension</u>	<u>Minimum</u>	<u>Maximum</u>			
Height	3-1/2 inches	4-1/4 inches			
Length	5 inches	6 inches			
Thickness	0.007 inch	0.016 inch			
as defined in USPS Publication 25, 2003, with processing defined					
as the feeding, sealing, metering, imprinting, and stacking,					

E194-231-10VP Neopost, USA Inc. Level XII

b. with other mail piece processing, not under the processing speed requirements, with a thickness of 5/8 inch and less, and 10 inches by 13 inches and less in size, with the flap on the long edge of the envelope, (this calls for a wide deck type feeder, with this feeder wide enough to allow mail pieces to flow through the machine without the operator having to push the mail pieces to keep them in line),							
c. with the mailing machine interconnected with an electronic type							

E194-231-10VP Neopost, USA Inc. Level XII

postage meter and the postage scale,						
d. with a power stacker or catch tray handling at least 300 pieces of						
letter mail,						
e. with the capability of processing mixed mail, with processing						
defined as metering and:						
1) direct printing the postage as the mail processing machine						
feeds each mail piece manually removed from a differential						

E194-231-10VP Neopost, USA Inc. Level XII

scale, with a mail piece thickness of 1/4 inch and less and a						
weight limit of 16 ounces and less,						
2) and for mail over these limits (up to the limit of the scale)						
generating a wet/dry (switch selectable) or pressure sensitive						
tape label (one or the other with both not required) each time a						
mail piece is removed from the differential weighing system,						
with the pressure sensitive tape having a grab type tab for ease						
of tape separation during manual application,						

E194-231-10VP Neopost, USA Inc. Level XII

f. with an inking system to provide at least 30,000 impressions						
without the need to change inking supplies, with an ink intensity						
control,						
g. with the mail processing system electronically interfaced with						
the postage scale and postage meter,						
h. with the capability provided for checking the postage meter						
date prior to postage printing,						

E194-231-10VP Neopost, USA Inc. Level XII

i. with a water envelope sealing system to provide for an even					
moist seal, with an easy fill reservoir, with this feature for letter					
mail of 1/4 inch and less in thickness,					
j. with the following modes of operation for letter mail of 1/4 inch					
and less in thickness:					
1) envelope nested or unnested (only one required),					
2) envelope sealed,					
3) envelope unsealed,					

E194-231-10VP Neopost, USA Inc. Level XII

4) seal only,						
2. Weighing System:						
a. with the following rates for USPS classes and services provided through the interconnection of the meter and mail processing system:						
1) USPS Classes:						
a) 1st Class/Priority, Pre-sort, and Automation rates						

E194-231-10VP Neopost, USA Inc. Level XII

	(including ZIP plus 4, and Bar Coded rates,						
	b) Standard Mail (formerly designated by the USPS as						
	3rd/4th Class),						
	c) International Air/Surface, rates,						
	d) Overnight Express,						
	2) USPS Services:						

E194-231-10VP Neopost, USA Inc. Level XII

a) Registered,					
b) Certified,					
c) Return Receipt,					
d) Return Receipt with Address,					
e) Insured,					
f) Oversize or Non-standard Surcharge,					
b. and with a postage scale:					
1) with a capacity of at least two pounds,					

E194-231-10VP Neopost, USA Inc. Level XII

2) with an accuracy of within 0.1 ounce of the true value, with weight increments of 0.5 ounce between 0 and 49 pounds, and							
1.0 ounce above 49 pounds,							
3) with weight displayed as a digital readout,							
4) and other size scales may be offered as options to the contract, with these other sizes able to connect with the system offered,							

E194-231-10VP Neopost, USA Inc. Level XII

3. Report Printer:							
a. laser or ink jet type interfaced with the offered system,							
b. for report printing,							
c. using standard 8½ by 11 inch 20 pound paper,							
d. using commercially available toner or ink cartridges,							
4. Rental of Postage Meter:							

E194-231-10VP Neopost, USA Inc. Level XII

a. with the capability provided of meter reset over a standard						
analog central office (CO) telephone line,						
b. with other optional reset communications methods offered as						
options to the standard CO line method, so long as any other						
methods are allowed by the USPS,						
c. with a display for indicating the amount left on the meter,						
which may be provided as the amount used instead of the amount						
left on the meter,						

E194-231-10VP Neopost, USA Inc. Level XII

5. Accounting System:							
a. with the capability provided to track 200 accounts,							
b. with the capability of printing a user defined time period							
transaction report, with this report capable of being structured							
to provide the following details (not necessarily all on the same							
report):							

E194-231-10VP Neopost, USA Inc. Level XII

1) by account number:						
a) Class of Mail						
b) Number of Pieces						
c) Total Amount Expended						
2) grand total of all accounts,						
3) accumulative accounting, with the ability to archive data and						
print on demand,						

E194-231-10VP Neopost, USA Inc. Level XII

c. with the capability provided of printing and viewing on a display							
the information on each account,							
d. and with a security feature requiring an account number to meter							
funds being dispensed.
