Rapid Deployment Armor Bag Features:

- Universal Plate Carrier Technology allows insertion of front and back 10" x 12" hard armor plates to protect against rifle ammunition
- Abdomen Pouch will accommodate 8" x 10" hard armor plate OR adjustable/ambidextrous pistol holster (both optional)
- Soft ballistic panels in the front and back provide NIJ Level IIIA certified protection for the torso, back and lower abdomen area
- Constructed from exceptionally strong 500 denier Cordura®
- Available in two styles:
 - 360° Zipper Model can hold up to a 24" weapon - easily unzips and allows the rifle to drop conveniently in place
 - Shroud Model can accommodate a 28" weapon and expands up to 45" via attachment shrouds. The shroud covers the muzzle and the hand-guard of the weapon. The shroud can be rapidly removed and the remaining portion of the bag is donned as a vest.
- High visibility identification (detachable) in the front and back
- Two oversized magazine pouches support a standard set of 30 round magazines
- Small pouches can accommodate two pistol magazines, flashlight, and pistol magazine combination, or one set of flex cuffs.
- Concealed back pack straps provide convenient weapon transport
- Attachment points for gas mask or other additional equipment
- Concealed shoulder and waist straps are adjustable for each individual user's fit

Ballistic PASGT Helmet - Level II or IIIA

PASGT Helmet Features:

- Hybrid multi-layered Aramid and ballistic fabric in a resin matrix
- 3 point suspension system with foam cushioned leather headband and chinstrap
- Optional ACG ComfiPad point suspension

Ballistic ACH Helmet - Level IIIA

Ballistic TC Helmet - Level IIIA

ACH Helmet Features:

- Specialized construction provides a high level of ballistic protection
- Unobstructed views leads to better situational awareness
- Neck trim offers maximum ballistic coverage
- Retention system provides great stability and comfort

TC Helmet Features:

- Considered the lightest ballistic helmet available today
- Shell trim has an extra wide, eye port opening which allows maximum peripheral vision
- Neck trim allows uninhibited movement when wearing most ballistic vests with collars
- Quick release mounted on the left side of the wearer's head will allow easy on, easy off use
- Ergonomic design and reduced ear and neck profile enable unrestricted movement for urban warfare

Name _____

Date _____

Agency _____

Point Blank Rep. _____

Address _____

Person Measuring _____

City _____

State _____ Zip _____

SIZING PROCEDURE: Measure and determine the size in the sequences shown below, then enter measurements in the provided boxes. For best results, take all measurements **while the officer is wearing his regular duty uniform and belt.**

STANDING MEASUREMENT SEQUENCE

SITTING MEASUREMENT SEQUENCE

Measure under the arms, across the shoulder blades and around fullest part of the chest.

Measure around the back and across the stomach at the navel.

Measure from the top of the sternum notch to the top of the duty belt.

Measure from the large bone at the base of the neck (center of the back) to the top of the duty belt.

Measure from the top of the sternum notch to the top of the duty belt.

ADDITIONAL MEASUREMENT DETAILS

Chest Measurement (To be taken standing)

Ask the individual being measured to raise his/her arms to shoulder level. Place the beginning of the tape measure in the middle of the widest point of the chest. Continue around under the arms and across the shoulder blades until the tape measure meets the starting point, keeping the tape measure straight and snug, not tight. Ask the individual being measured to drop his/her arms to the sides. Record the chest measurement.

Waist Measurement (To be taken standing)

Place the beginning of the tape measure in the middle of the stomach at the navel. Continue around the back and side until the tape measure meets where you started, keeping the tape measure straight and snug, not tight. Record the waist measurement.

Front Length (To be taken standing)

Place the beginning of the tape measure at the notch in the clavicle. Continue down to the top of the duty belt, keeping the tape measure straight and snug, not tight. Record the length measurement.

ADDITIONAL INFORMATION
